BEDDER SPREADER

STATE OF THE ART TECHNOLOGY

- Same proven hydrostat drivetrain as our Self-Propelled Alley Vac!
- 7.1L Stage V CAT Engine
- Large diameter UHMW belt drive sprockets
- Grease for life bearings in the cross conveyor – same as our Lagoon Pumps
- User friendly controls of the conveyor
 - Thumb dial for conveyor speed
 - Joystick fwd/rev for conveyor tilt

- Hydraulic drive oil cooler
- AR400 box floor
- 5/8" G80 drive chain
- Wide floor with steep sides to prevent material bridging
- Operator friendly conveyor location for optimal visibility
- Oversized floor gearbox
- A/C standard
- Front walking suspension standard
